Challenges 1-3

Teams will be randomly assigned to compete against different opponents during the three challenges.

-For each challenge, teams will be given a point score that correlates to their position on the board when the game is won. Example: team 1 reaches the truth square to earn 13 points while team 2 is on space 10 so they get 10 points.

-The total points for all 3 rounds are added and the top 3 teams will compete in the Final Challenge round. Ties determined by head to head competition with 3 bonus questions asked.

The Final Challenge

The 3 teams with the highest points from the first three challenge rounds earn the right to compete for 1st, 2nd, and 3rd during the final round. The teams that had 4-6 place finishes earn the right to compete for 4th, 5th, and 6th during the consolation round. All other teams will get to watch. If time permits, the teams will play until the second place team lands on the Truth Square.
